# Triplet

A triplet has three lines whose ending words usually rhyme. All lines should have the same syllables. See example:

## Triplet Rythm

Three lines

Equal Syllables

Ending words rhyme in either AAA, ABB, or ABA

A I have a little **cat**,  
A who has a tiny **hat**,  
A He stole it from a **rat**.

A Silly, slimy monsters look,  
B Icky, sticky and **funny**,  
B Like globs of greenish **honey**.

A They say that parrots like to **talk**,  
B But all I've ever heard mine say,  
A Was something sounding like a **squawk**.

# concrete

A concrete poem is also called a shape poem as the words of the poem are written in a specific shape. The topic of the poem must relate to the shape. See example:

## Concrete Example

The topic of the poem is the bunny.  
The words are written the shape of bunny hops.

HOPPY, HOPPY THE BUNNY  
GOES BY SILL
